Call us for an energy audit to help lower your energy use

BY KEVIN WHEELER

As Mother Nature begins to loosen her hold from winter and we start to see the cold **fade**, I want to remind everyone that our rate increase will take effect April 1, 2016. No one likes an increase, but it's necessary to maintain a safe, reliable electrical system and keep your cooperative financially stable.

As you may recall, the December newsletter discussed that the rate increase will range from 10.48 percent for single-phase members to 7.3 percent for large power members requiring power from 200 to 500 kilowatts. Including industrial members whose loads exceed 5,000 kilowatts, the overall increase drops to 7.9 percent with industrials receiving a 4.5 percent increase. The December newsletter article is available on our website at www.accessenergycoop.com.

Now is a good time to start thinking about how you can make **energy** efficient home improvements for this summer and next year's heating season. If you're looking to make improvements, be sure to contact our Member Services Department. They'll be happy to conduct an energy audit

and show you the **test details** on what improvements would be the most beneficial ones to save energy.

We also offer rebate programs to assist you, ranging from sharing costs on energy efficiency improvements to upgrading your heating and cooling system. This is just one example how the cooperative is here to serve you.

During my first month at Access Energy Cooperative, it's been very exciting to have been received with so much gracious enthusiasm and support from all the employees. It's also been a pleasure to meet members of our service area, and I look forward in the coming months to meeting more of you in our community.

Kevin Wheeler is the new general manager/CEO of Access Energy Cooperative.

Students: Want to win a trip to Washington, D.C.?

Each year, Access Energy Cooperative sends two students on the Youth Tour trip to Washington, D.C., at the cooperative's expense. This is a chance to join hundreds of other students across the country for a chance to learn about the cooperative business model, experience a full week of sightseeing and meet with elected officials to discuss important issues back home.

If you're a high school sophomore or junior interested in traveling to our nation's capital, **check** our website at www.accessenergycoop.com to download or submit an online application. You also can get an application at your guidance counselor's office or by calling our office at 866-242-4232. Applications are due in our office Feb. 26, 2016, and personal interviews will be held at our office March 10, 2016. You must be able to participate in an interview on this date to qualify for the trip.

Just for Kids

Home schoolers: Save this date to learn about electric safety

It's an important **goal** for Access Energy Cooperative and all of our employees to help elementary kids learn how dangerous electricity can be if it's not respected. So, we offer **safety** demonstrations to all area schools on an annual basis. And, April 5, we're extending this educational opportunity to our area's home-schooled students.

Our program is real hands-on learning and will help students understand why it's important to take precautions around electricity. Presenters and kids have a lot of fun interacting and exchanging questions and answers. A highlight of the presentation is the dressing up of a volunteer student in the safety equipment that allows line workers to safely work on energized power lines.

Students will learn:

- Historical electricity facts
- Safety precautions around electricity
- Safe use of electricity

- Safety around electrical poles, downed power lines and utility substations
- Why it's important to stay away from power lines during outdoor activities such as kite flying or climbing trees.
